THAT IS OUR WAY
 (New York Evening Post)

Twelve musicians from this city
 who went to London and expect to
 play at English concerts and music
 festivals were not permitted to leave
 the country, Secretary of State
 Hughes and several members of the
 American Bar Association, fellow
 citizens with the musicians, inter-
 posed for them, but the British of-
 ficials were firm in their refusal

to let them go. The British of-
 ficials, however, and a half con-
 sidering the fact that the British
 war, the British cannot will allow
 sentiment to influence them in ad-
 ministering the law in the impor-
 tant subject of immigration. Nor will
 the British allow those who are in-
 firmed assistance to desertive every
 duty of the British office as in-
 firmed. That is our way. Any false
 statement about Ellis Island find
 itself belied.

— HELPING GERMAN
 (Action Press)

The Standard Company has been
 the means of casting concrete
 also force when the war broke out
 the other day that they were having
 some steel oil tankers—oil carrying
 ocean transport—built in Germany,
 and that the contract prices for
 the war were very materially lower
 than similar contracts which have been
 laid in for the United States. Good
 news! What with Germany's Ger-
 man, German, German, German and
 German, steel tankers, the United
 States is surely helping the war na-
 tion to get back on its feet industri-
 ally.

RECORDING BUOYANCY
 (Hamilton Herald)

Goods news! Buoy and regular
 schedule for the fall. The first in
 the record of the G. W. Robinson
 company for the last year. The sec-
 ond in the Tallman Bros. and Found-
 ery Company, which has been on a
 purchase day may have orders have
 brought back the full time work. Not
 much ground these two retail
 businesses. And perhaps, if we do
 fight down to it, there isn't so very
 much anywhere else.

— PREACHING
 (E. W. Howe's Monthly)

Preaching is, at least, if one does
 not spend too much time at it. Many
 waste time preaching, and many
 others waste time in listening to it.
 The terms of real importance were
 preached long ago. We all know
 things. The real thing is to use
 good things, not false ones, and
 them, and foolishly waste much
 time.

 ably affects everybody except the

NEW FARMER ORGANIZATION
 (Colony Albanian)

The Farmers Union of Canada has
 been in Alberta. It is a great farm
 organization in opposition to the
 F.A., opposing any sort of political
 action. It will be a long time before
 it will be able to support the farm
 organization, because the F.A. for
 the low being is more interested
 in political action than the farm
 activity. Generally there will be a

ONTARIO FERRY WENT AGROUND NEAR COBOURG

Thousand Picnickers Forced to Stay Aboard Last Night

LOCAL PEOPLE THERE

Passengers Taken Ashore on Tug Boat This Morning

men and children were forced to stay aboard the Ontario Ferry No. 2 last night when that vessel went aground in the fog on its way into the Cobourg

This ferry boat which plys between Oshkosh and Rochester was carrying a large number of passengers, including about 500 adults in addition to children. Most of them were part of the annual excursion of the University. They had spent the day in Rochester. Several Belleville people were on the boat. On the way back, a heavy fog was encountered and the boat is said to have got off its course and almost its own length from the dock it was bound for.

There was no panic. Passengers were informed of the predicament and prepared to take whatever action was necessary. The boatmen and crew were accommodated in the cabins and grown-ups sat the night through on deck.

Early in the morning, a small tugboat was sent out to pick up the passengers to shore, after futile efforts on the part of a dredger to get the ferry back.

Belleville people did not arrive in the city until late this morning.

CHICAGO MARKET

Chicago, Aug. 7.—Influenced by an advance in quotations at Liverpool and by reports of progress at Reparations office, wheat advanced 1/2 cent to 1 1/2-1 3/4c, with an early upward tendency to-day. Black rust reports from North Dakota and the fact that the wheat is still in the factor. Large sales of wheat here however to go into store were something of an exception.

Barley advanced 1/2 cent to 1 1/2-1 3/4c higher, were followed by slight further gains and then by a moderate decline. Some speculative buying at the start. After operating 3-5c to 1-1 1/2 higher. Market was stronger than three months in some cases.

Oats were easier, sympathizing with corn. They advanced 1/2 cent to 5-5 1/2 up, but then the market receded to below yesterday's finish for all deliveries. Provisions reflected weakness of corn.

The record jump of a sea is, on the other hand, rather less than expected. It is only 14 inches long and less than eight inches high. If a man, when his weight is compared with that of a sea, had a strong jumping power, he could leap 21.2 miles in the air, and horizontally could jump 36,000 miles, or one and a half times round the world.

Ten upward leaps would take him to the moon; but his velocity would be so terrific that at the first jump he would burst into flame, and disappear like a shooting star.

Kidney Poison

IF YOUR BACK HURTS
IF YOUR BLADDER BOTTLERS UP, BEGIN
TAKING SALTS

When your kidneys hurt and you feel sore, you're not scared of urinating. You're afraid you'll urinate with a lot of drugs that excite the kidneys and irritate the entire urinary tract. You're afraid you'll urinate with deep brown, clean, by flushing the bladder with a mild, harmless salt water solution to remove the body's uric acid and uric acid salts, and to restore normal activity. The function of the kidneys is to filter the blood, to remove the waste products of metabolism and waste, so we can readily excrete the vital importance of keeping the kidneys healthy.

Drink lots of good water—yes, you drink too much; also get out of your carminic about four ounces of Epsom salt water, in a glass, after a glass of water before breakfast; each morning for a few days and your kidneys will take a temporary rest, in a

TRADE IS HURT BY HIGH PORT CHARGES

Shippers, Aug. 7.—Higher port charges in England than those on the continent are handicapping a meeting of the Liverpool Steamship Owners' Association, which was held here today. One member said that British goods would be sold at a disadvantage in foreign markets by the difference between the high rates at British and continental ports.

P. Russell and the secretary of the Liverpool Steamship Owners' Association, who were here today, said that about three shillings a ton in port charges in England, as compared with one shilling in the United States, would be a disadvantage to British goods. Unless warships could be brought in, said the port of London, the port of London would be a disadvantage to British goods. The port of London would be a disadvantage to British goods.

THE ANGLICAN LEAGUE

Having in mind that the Lord Government in the old country is about to pass legislation which is hoped to clear the way for the settlement of the Irish Boundary question, the following brief outline of the situation is given here.

Under the establishment of Home Rule in Ireland there came a treaty providing for the future of a boundary line between the north and the south. By this treaty a Boundary Commission was provided which was to draw the dividing line.

Partly because Ulster had no say in this treaty between the British Government and the Free State, the Judicial Commission of the Privy Council ruled that the British Government could not bring the treaty into effect without further legislation.

Apparently Premier Macdonald is now to offer legislation which will make it necessary for Ulster to sit outside over the boundary line.

The disputed area consists of the province of Tyrone and Fermanagh. The Boundary Commission will have to decide whether they shall go to the North or to the South. This will be dissatisfaction no matter which way the question is settled, at least gone to show that in Ireland has a considerable way to go yet on that point to happen.

CANADIAN MAGAZINES

Those who follow magazine publications must have noticed a decided improvement in certain Canadian periodicals in recent months. They are giving good promise of being what have been viewing with some hesitancy to alarm the circulation and influences of United States magazines in Canada.

With no interest in discrimination, four magazines are mentioned: Maclean's, The Canadian Magazine, The Canadian Home Journal and The Living Page. These four are fighting valiantly against the invades of a score of competitive big magazines from the U.S. and are making a creditable fight.

Maclean's, The Canadian and The Living Page are giving better results, while retaining the Canadian touches. The Living Page, which started out as a solidly published magazine in a very new developing this department. All have improved in appearance and in interest generally.

They are going to make the support of Canadian not through a patriotic appeal only, but because people will want to read them.

DANGEROUS

(Toronto Mail and Empire)

It is, as a local reporter advises us, no revolutionary in worse than a more, there, the attention of the public ought to be called to the fact to the origin of the British Association.

TOO MANY TAXES

(British Whig, Kingston)

It should not be necessary for a

country to have fifteen or twenty different taxes. There are about that many in Canada counting not only Dominion taxes and about five each of the province and municipal taxes. A more simple system of half a dozen, which would, of course, be a high rate, would be preferable, and a good step in this direction would be the abolishing of these stamp taxes.

LADY AUSTIN'S PICTURE

(New York Telegram and Mail)

Arguments advanced in the Commons against the painting—temporarily hang in the Palace of Westminster—showing Lady Austin being introduced to the Speaker by Arthur Balfour and David Lloyd George as the first woman M.P., will hardly convince the advocates of equal rights.

It must be admitted that it was a very important historical event, marking the end of an old and the beginning of a new era in British politics.

Close by is a picture of Queen Elizabeth. This is a picture of the old queen, would hardly object to the company of another woman who can paint to give her with the rest of her sex.

If the argument were put forward that it is improper to honor a woman who has been so long in the world as a complete answer in the fact that the National Gallery suspended its rules in order to accept the portrait of the Westminster family by John Singer Sargent.

Should it be argued that it is inferior as a work of art, there would be no difficulty in finding many worse in the portion of Paris.

No, it won't do. It is impossible to avoid coming to the conclusion that there are certain men in the Mother of Parliaments who can't respect themselves, even now, to the hard logic of events.

USES OF PRIVATE CARS

(Toronto Saturday Night)

A great deal of headline and editorial comment has been made on the ground of the press in regard to the private cars utilized by the various heads of the Government and their journeying over the lines on which they have jurisdiction. One might with just as good reason complain as to why the president, the vice-president, the general manager and the superintendent of any large private corporation are allowed offices in place of being with the clerks. The general superintendent does not go skydiving over his line in a private car. If he wishes a holiday, riding about on the country over which he has jurisdiction is about the last thing he would do.

For all intents and purposes the private car of a railway official is his office; just as much his office as if he were in Windsor Hill, or in the heart of the business that comes before him from day to day just as he is in his home office, and at the same time he is conferring with the minor officials of his section as to local questions which are constantly arising and which are best adjusted on the spot.

Valuable Minutes

IN THE few minutes required to run your eye over these advertising columns, you may learn of something that will serve your convenience for years. Rather valuable few minutes!

You aren't spending time when you are reading advertisements. You are saving both time and money. Each day advertisers help you to compare values and prices. They tell you where you can secure the best and most serviceable at lowest cost.

Advertised goods are more dependable than goods unadvertised. They must be exactly as claimed. They can't afford to be otherwise.

Make a daily habit of reading the advertisements. It pays.

Mistakes in buying are costly—avoid them by reading advertisements.

MOSE FOR NEWS

Fifty Canadian newspaper men returned home a few days ago after a two month tour of Belgium, France and the United Kingdom, bringing with them first-hand information of conditions in Europe and what is more important, a broader understanding of the world which will be reflected in their news columns. The interview with Mr. John E. Wood, former managing editor of the Spectator, was of Calgary, which was given in a recent issue of this paper, sensationally presented as accurate picture. The mind of the trained newspaper man is a sensitive plate which records both light and shadows. Mr. Wood's reference to Ireland was of particular interest. He was asked to give news, and Ireland has not been prominent in cable headlines of late. We in this state have reason to think that Mr. Wood was against such hasty conclusions. When he declares that there was in the Emerald Isle a part of which is under the jurisdiction of the Free State government—industrial stagnation and an atmosphere of silent unrest, he is not speaking as a twenty-four hour tour of duty, but as a man who has seen the inside of the situation, who has seen the people who are the backbone of the nation.

Every member of the police department is working on the burglary case which broke out at Ritchie's store, 216-218 Front street, was a gang of crooks, who took away with them \$15,000 worth of merchandise.

When entering the Ritchie store the burglars also made an attempt to break down doors in the same building, where they stole all the clothes and shoes and took away with them a large quantity of goods for men and women. The police are now looking for the gang, who are believed to be in the city.

While P. C. David Harris was trying to get the last of the \$15,000 worth of merchandise, he found the store empty. The police are now looking for the gang, who are believed to be in the city.

When the police showed that entrance had been effected by climbing down the side of the building, it was an opening effected by steel bars which were kept down by the store owner. The police are now looking for the gang, who are believed to be in the city.

Exhibition Races

Firestone Gum-Dipped Cords

By the clean sweep of every important race at the Canadian National Exhibition, Firestone Gum-Dipped Cords demonstrated their superior strength, stamina and reliability. These wonderful tires were most of the principal speed events of 1923 and are continuing an unbroken record of victories in 1924.

Gum-dipping gives Firestone equipment a decided advantage. Gum-dipping impregnates and insulates every cord with pure rubber, eliminating friction and giving extra strength and resilience to withstand constant flexing and pounding on the track or road.

Gum-dipping is the process that made it possible for Firestone to introduce and perfect full-size balloon tires. Without H. Firestone full-size Balloon Gum-Dipped Cords could not provide their high degree of comfort, safety and car conservation without sacrificing mileage or economy.

The majority of veteran race drivers prefer Firestone Gum-Dipped Cords and Steam-Welded Tubes. You can trust their sound practical judgment. The tires and tubes that have such stamina on the speedway is sure to give many thousands of extra miles on the road. See the Firestone dealer.

These cars at the Canadian National Exhibition are Firestone equipped:
